

# *A Community Reading Together...*

In partnership with the South Brunswick School District, the 2017 edition of this community-wide reading program will celebrate *The Boy Who Harnessed the Wind* by William Kamkwamba with Bryan Mealer.

This story is available in various formats and editions suitable for different age groups. It is the inspiring true account of an African teenager who constructed a windmill using old science textbooks and recycled scraps to create electricity for his entire community.

Our result will be an enriched community  
because of this shared journey!
